

Transition Dartmouth Park

LIVING SUSTAINABLY AND CREATING A RESILIENT COMMUNITY

Charles Everard talks about Bickleigh Eco-Village

Thursday 13th November, 7 – 9pm

Lord Palmerston, NW5 1HU

(corner Chetwynd Rd/Dartmouth Park Hill)

As part of the event programme, Transition DP is hosting Charles Everard, Founder and Director of CornerstoneZED to talk about how we can make carbon neutral dwellings commercially viable. Everard's company is developing Bickleigh Eco-Village in Devon to be the UK's first commercially viable zero energy eco-village, i.e. homes that do not create a carbon 'footprint' but rather generate a small energy surplus.

Join us for an evening of practical demonstration and real solutions for a more sustainable future!

THIS EVENT IS FREE
